

**Tall fescue**

Take Advantage of the Qualities of Tall Fescue in Turf Mixtures!

- Improved fineness of leaves
- Very high wear tolerance
- Highly adapted in mixtures
- Very rust resistant

**Hodnocení**

**Adaptation in Mixtures**

Hardly two summers are identical. Sometimes the drought is prolonged and the growth of tall fescue favoured. On the other hand humid conditions will favour species like perennial ryegrass.

**Such alternating conditions...**

...can lead to a heterogeneous turf aspect. In our private trials we have remarked the ability of STARLETT to maintain the mixture balance.

**>= 30% in mixtures**

For STARLETT as for other tall fescue varieties we recommend at least 30% (weight) in the seed mixture to ensure a good start facing the more aggressive ryegrass. The perfect partner for tall fescue is *Poa pratensis*.

**Very Rust Resistant**

STARLETT is highly disease resistant, in particular towards rusts.
